- Development centre in California

Resources & Expertise

- Resource pool of over 150 IT knowledge workers working on various technology domains.

Quality Assurance Services

Manual Testing. Automated Testing.

Performance Testing. Load Testing. Stress Testing.

Information Security Testing.

Quality Assurance Services (Testing) Capabilities

- **Various Clients and Consultants**
- **“Quality Assurance” identified as a key growth engine**
- **Key offering include:**
 - Test Process definition, Test Process Assessment
 - Verification and Validation Services
 - Test Automation
 - Web & Mobile Technologies
 - Performance Testing Services
 - Metrics and Reports
- **Flexible operating model**

QA Services – Execution Framework

Objectives

Provide total quality assurance

Implement defect free application going live

Build test knowledge base

Increase reusability

Leverage opportunities for automated testing

Key Deliverables

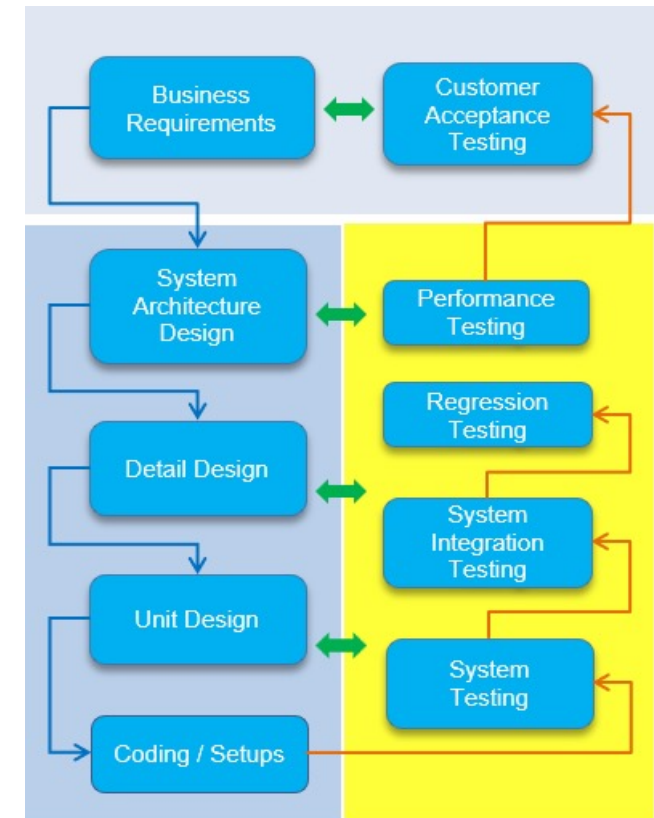

Test Plans

Test cases/Scripts
Test Metrics

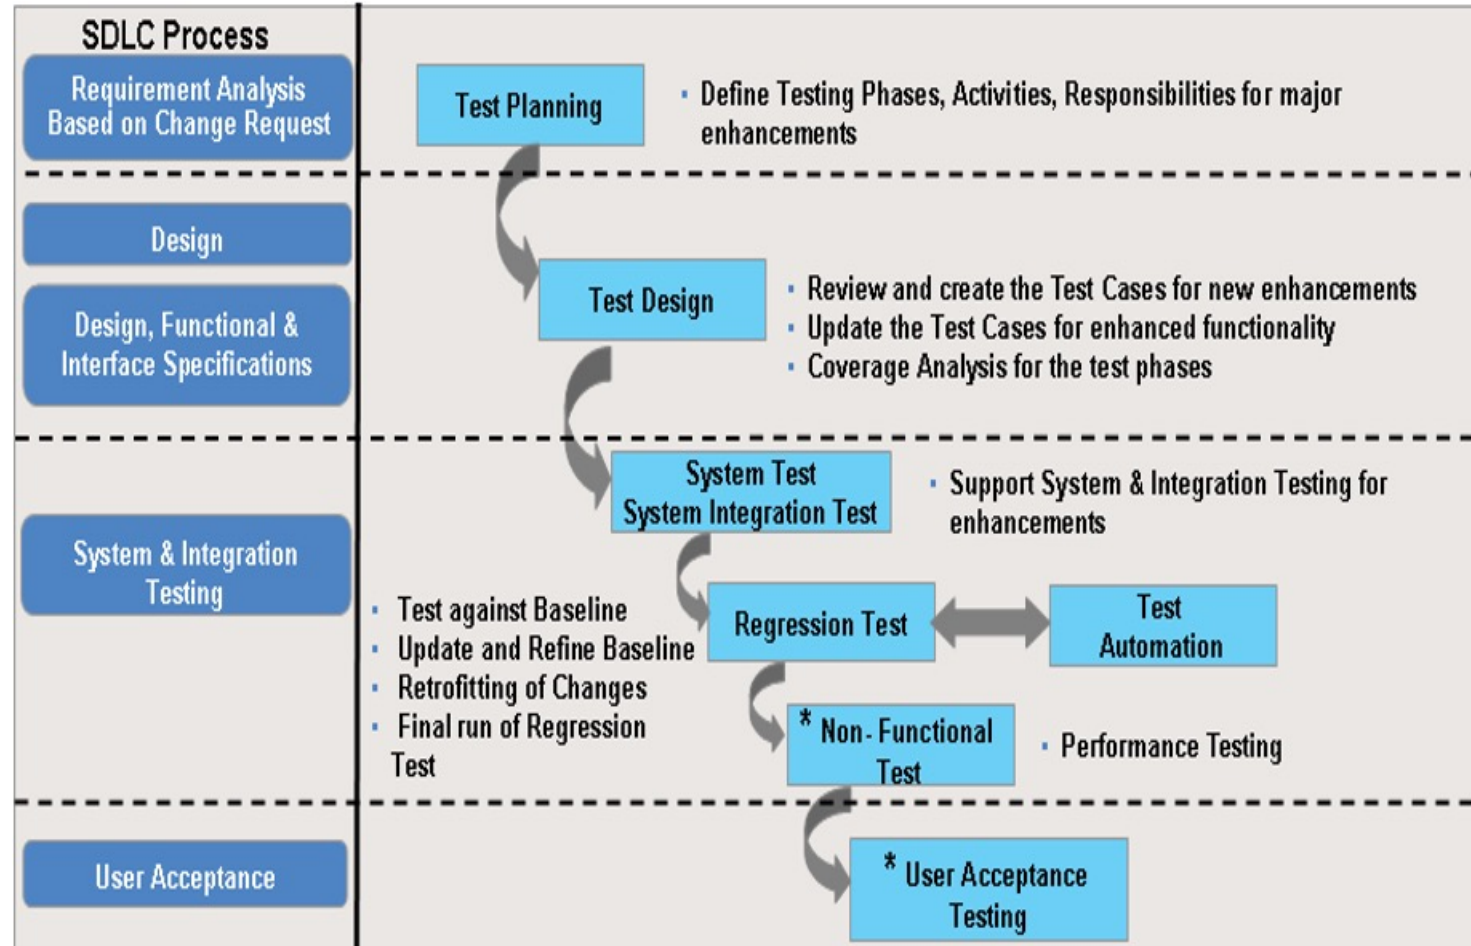

Test Results (System/
Regression/SIT/E2E /)

Test Reports

Traceability Matrix

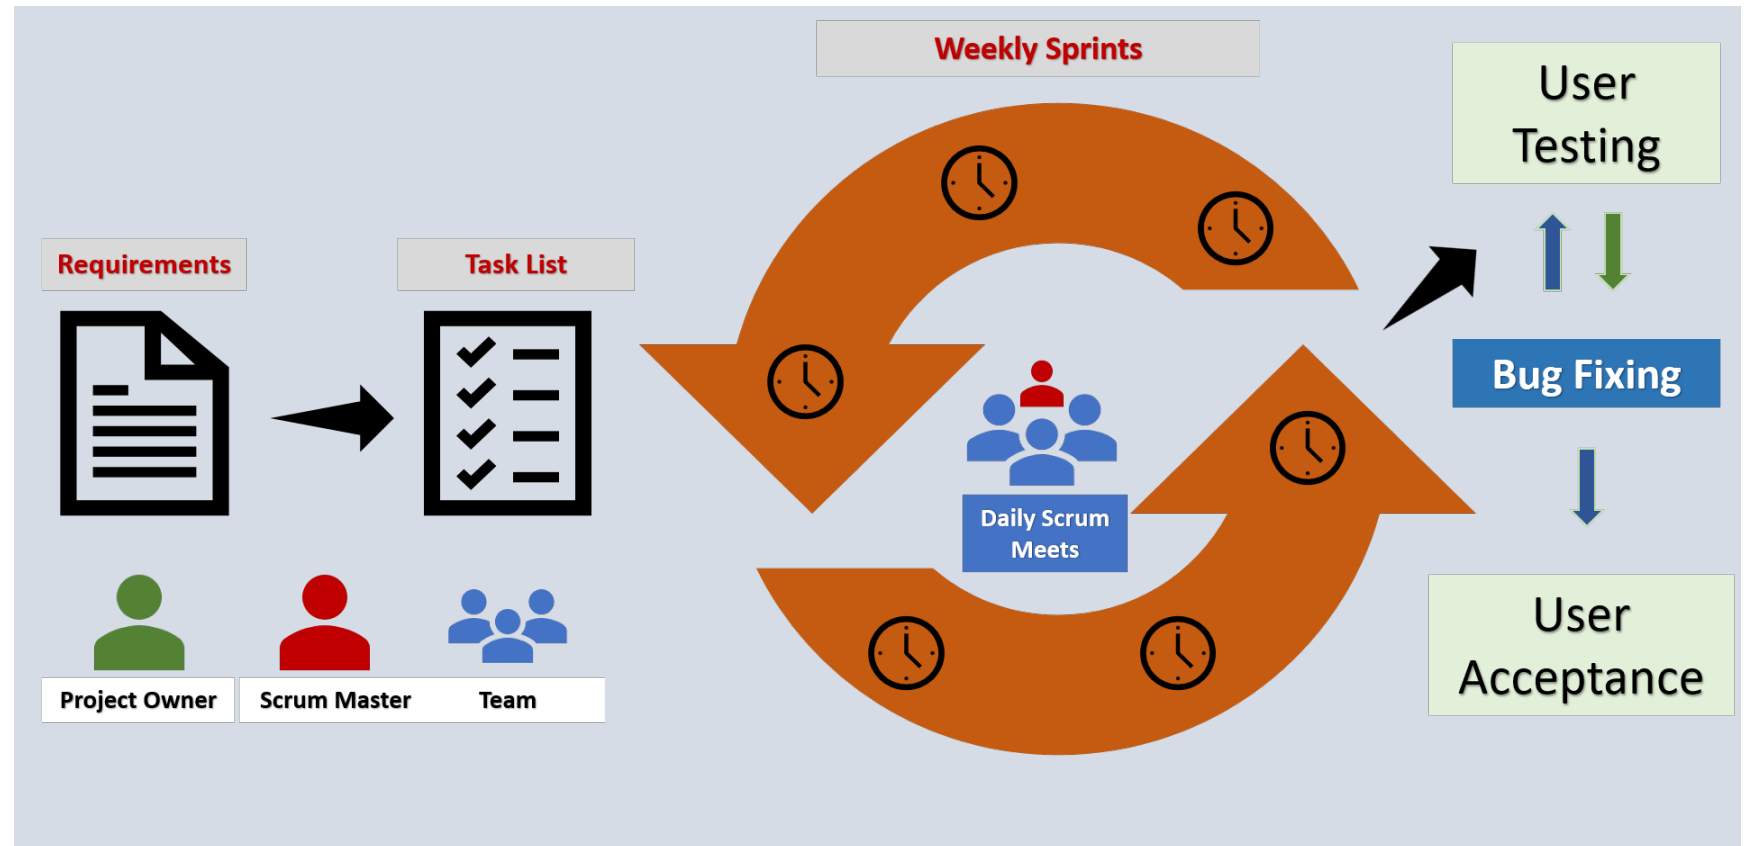

Quality Assurance Services – Testing Life Cycle

Our Process

- We adopt Agile process as we believe that our customers need transparency, flexibility of the process and early ROI.
- Poker Planning and design user stories.
- Collaboration among Project Owner – Scrum Master – Team; to prioritize the tasks
- Daily scrum meets
- Bi-weekly or weekly sprints depending on the client requirements
- User testing and User Acceptance

Technology & Partners

Enterprise Resource Planning

- SAP
- Oracle E-Business Suite
- Salesforce Administration
- Workday Financials, HCM

Microsoft Technologies

- .NET, C#, VB.NET, ASP.NET
- Microsoft Dynamics, CRM
- SharePoint
- MS SQL Server

Mobile Applications

- Apple iOS, OS X
- Android
- Hybrid apps

UI/UX (both Web and Mobile)

- React, Framework7, AngularJS, Material CSS, JavaScript, jQuery, HTML/CSS, Bootstrap

DevOps

- Jenkins
- Bitbucket Pipelines
- Docker
- Kubernetes

QA

- Automation using Selenium, Cypress
- Load Runner, Jmeter for Performance Testing
- Test Management - Jira, Test Rails
- BDD Framework - Cucumber

Languages

- Java
- Python
- Hadoop
- Perl
- PHP
- PL/SQL

Remote Infrastructure Management

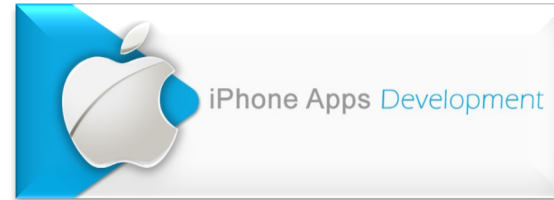

- System Administration
- Cloud Management
- AWS Services
- MS Azure
- Google Cloud
- Merantis Open stack

Robotic Process Automation

- BluePrism
- Automation Anywhere
- UI Path

Project Management

- Agile methodologies (Professionals certified in Agile)
- PMP-PMI certified professionals
- DevOps Management

Customer Profiles

Customer Profile
